## Education

### Nxtwave Disruptive Technologies

Sep '22 - Ongoing

Industry Ready Certification in Full-stack Development

### Anurag group of Institutions, Hyderabad

2018 - 2022

B Tech (Bachelor of Technology)\_Mechanical Engineering (ME) (6.5 CGPA)

### Srichaithanya junior College, hyderabad

2016 - 2018

Intermediate\_MPC (92.0%)

### SPR School of Excellence, Hanmakonda

2015 - 2016

Secondary School Of Certificate (9.2 CGPA)

## Project

### Nxt Watch

[project1\\_link](#)

**Technologies used :** React JS, JavaScript, CSS, Bootstrap, Routing, REST API Calls, Local Storage, JWT Token, Authorization, Authentication.

Created the Nxt Watch app, a YouTube alternative allowing users to log in, browse video categories such as Trending and Gaming, view saved videos, and search for specific content with a customizable theme.

- Designed interactive pages, including Login, Home, Trending, Gaming, and Saved videos, using React components, state management, and lists.
- Implemented a secure login system with username/password input, followed by API calls and JWT token handling for persistent login states.
- Utilised React Router components (Route, Switch, Link) to establish distinct routes for various pages, enforcing authentication through protected routes.

### Movies App (Netflix/Amazon Prime Clone)

[project2\\_link](#)

**Technologies used :** HTML, CSS, JavaScript, React JS, Bootstrap, React Slick, Figma, client storage.

Implemented responsive OTT platform app like Netflix/Amazon Clone where users can see movies like popular, trending, top-rated, and also can search movies and view specific movie details.

- Implemented different routes for features like login, home, popular, profile by using React Router components Route, Switch, Link.
- Implemented horizontal scrolling (In trending, top-rated, and originals sections) using React Third Party library called React Slick.
- Used Figma mockups to implement UI-rich and pixel-perfect React components.
- Explored open-source APIs for movies database and picked TMDb APIs for authentication, movies by category, and movie search APIs.
- Implemented username and password authentication and persisted login state using client storage.
- Implemented a protected route to ensure only authenticated users can access the pages like user profile, movies by category, etc.

## Todos Application

[project3\\_link](#)

**Technologies used :** HTML, CSS, JS, Bootstrap

A task management solution, designed to make life easier.

- Streamlined task management through a combination of HTML, CSS, and Bootstrap for an intuitive interface.
- Seamless CRUD operations through JavaScript event listeners and dynamic UI updates.
- Secure task persistence with local storage methods, ensuring that your tasks are always available.

## Portfolio

[project4\\_link](#)

**Technologies used :** HTML, CSS, JavaScript, React.js, Node.js

In these portfolio,

you will find a comprehensive overview of who I am.

It serves as a reflection of my skills, and accomplishments.

provided an overview of my Education, my Work, and Skills.

I have carefully curated a collection of projects that showcase my abilities and demonstrate my passion for IT Industry.
